

# WALL TO WALL UNIFORMITY. SEAMLESS ILLUMINATION.

*Introducing* The Huntington Perimeter Systems

*The Solution.*

REMOVE THE  
COMPLEXITY OF  
ILLUMINATING  
THE CONNECTION  
POINT BETWEEN  
THE CEILING  
AND THE WALL.

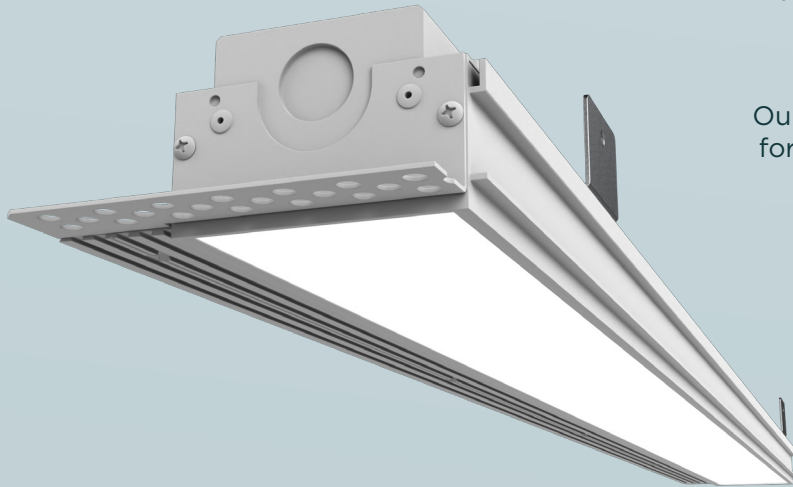

# Precision Engineering

Take it to the edge. Unleash the effect of Perimeter Lighting with our new system: Flush and Regress options for complete perimeter solution.

Up to **300 Feet of continuous lens** with no visual seams of any kind due to our patent pending Dual-Diffused **MEO™ technology**.

Our **Toolless Latch System** allows for simple and fast installation of continuous runs.

## LOPRO FLUSH PERIMETER

**Low profile** depth behind ceiling for use in low plenum installation:

- 2.85" - 3.05" Depth (Remote Driver)

## REGRESS PERIMETER

**Multi-depth ceiling options** for use in most plenum installations:

- 1.75" Regress: 5.75" - 6.13" Depth (Remote Driver)
- 3" Regress: 7" - 7.38" Depth (Remote Driver)

# *Feature the Details*

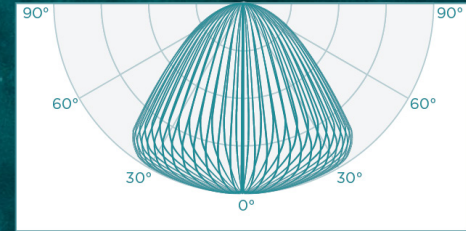

Graze Optic is available in the HTG-3PR Regressed 3" Option.

# DESIGN WITHOUT COMPROMISE

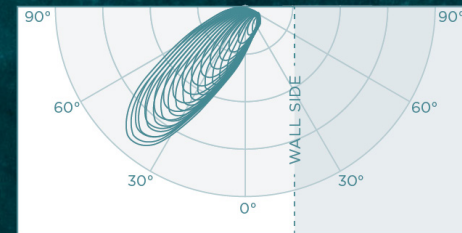

Our innovative **Microstructure EdgeTech Optics™ (MEO™)** delivers unparalleled optic control and exceptional performance with seamless illumination and uniformity. Pixelation, hot spots and lens breaks are a thing of the past. MEO™ allows us to craft high performing, low-profile fixtures with optic options like batwing, glare control and diffused light distributions.

## CRAFTED WITH MICROSTRUCTURE EDGETECH OPTICS™

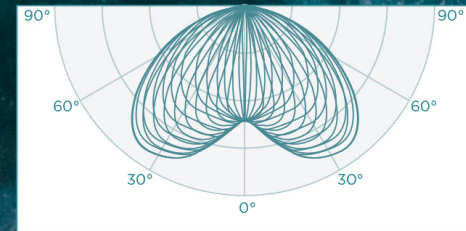

Specify Diffused (Lambertian), Batwing, Glare Control, or Room Fill Optics.

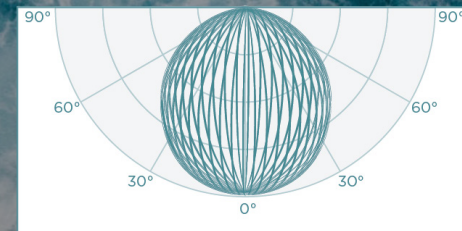

**MEOGC**  
GLARE CONTROL

**MEORF**  
ROOM FILL

**MEOBW**  
BATWING

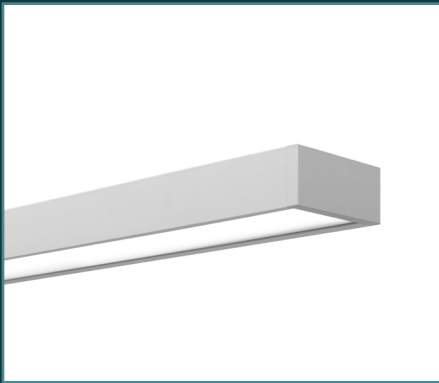

**MEODF**  
LAMBERTIAN

# *Huntington Beach Born*

Driven to define what's next in architectural lighting.  
We design and craft architectural lighting on the west coast.  
And we do it with style. Unbound by convention, Extant  
dares differently, from our performance-driven, stylish  
product line to an unparalleled focus on customer care.

**At Extant, Expect More.**
